TRAVEL MADE EASY

15,15 KG

TRAVEL WITH PEACE OF MIND

The Plego Carbon is equipped with a Lithium battery that complies with the international IATA* (International Air Transport Association) standards, giving you the freedom to fly with confidence.

* Please note: each airline has its own requirements regarding the transport of Lithium-ion batteries and retains the final decision on whether the wheelchair can be accepted on board. Before travelling, we recommend confirming with your airline or carrier that they allow battery-powered vehicles classified under UN3171. For further details, please refer to the user manual.

S M A R T PERFORMANCE

*DRIVING SETTINGS CAN BE ADJUSTED BY A QUALIFIED
PROFESSIONAL USING DEDICATED PROGRAMMING EQUIPMENT.

PLEGO CARBON delivers reliable performance for everyday life. The programmable* joystick lets you personalise acceleration, responsiveness, and control, giving you a truly tailored driving experience.

16 KM DRIVING RANGE WITH ONE BATTERY

PROGRAMMABLE JOYSTICK*

WHY CHOOSE PLEGO CARBON?

Compared to similar folding carbon wheelchairs, PLEGO CARBON brings more than lightness. Its premium comfort, magnesium components, and compact design set a new standard. It's among the most compact powered chairs available, yet it also offers the comfort and adaptability that users need every day.

**LIGHTWEIGHT PORTABILITY, PREMIUM
COMFORT, AND SMART PERFORMANCE.**

More than lightness.
A smarter choice.
